Myofascial Release and Other Manual Techniques in Dysphagia Management

OT/COTAs, PT/PTAs, SLP/SLPAs

Includes Anatomy of Swallowing Online Course

Immediate results!

"...In the interest of practicing and perfecting my new skills, I worked on a couple of my immediate family members, and both of them reported immediate relief from headaches..."

New treatment options!

"...In my practice there are few techniques that evidence immediate positive consequences so I am grateful to have these new procedures in my tool belt. I am planning to research the implications of this technique for decreasing tension and stress on the vocal folds for voice therapy..."

Patient success!

"...I took your course in San Antonio, TX in May. I have been following your recommendations for over three weeks and the patient I was concerned about is now eating three meals and two snacks per day! She is expected to lose her PEG tube by the end of the month. Thanks again for your excellent course..."

Meets PDU requirements for NBCOT.

Course Supplemental and Advancement Opportunities is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See manual for details. See number of ASHA CEUs, individual level and contact area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

Live: This course is offered for 1.2 ASHA CEUs (Intermediate level, Professional area).
Online: This course is offered for 0.4 ASHA CEUs (Introductory, Professional area).

The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.

CIAO Automatically reports to CE Broker for Florida Occupational and Physical Therapists and Assistants. Florida SLPs can either use the ASHA CE Participant Form (Bubble Sheet) or self-submit through CE Broker

Myofascial Release and Other Manual Techniques in Dysphagia Management

LIVE COURSE

This interactive two-day workshop for rehabilitation teams will address evaluation and current treatment techniques appropriate for soft tissue and joint limitations that contribute to an abnormal swallow. The lecture reviews muscular and fascial anatomy tying kinesiology into a discussion that relates specific soft tissue mobilization techniques appropriate to improving all stages of the swallow; oropharyngeal, hypopharyngeal and pharyngoesophageal. A thorough discussion will relate the impact of scar tissue formation and immobility on mechanical and neurological aspects of the functional swallow. Interpretation of common pathology and symptomatology on both bedside exam and MBS review are introduced. Additional course objectives include postural impairment, functional anatomy and biomechanics of the temporomandibular joint with an informative and focused laboratory component providing OTs, PTs and SLPs with basic practical skills in palpation, seating and positioning and soft tissue assessment and mobilization as it pertains to dysphagia in clinical practice. The majority of this course will be in functional, hands-on application with frequent case study discussion to identify impairments and exemplify the use of manual therapy through myofascial release techniques. The emphasis of this practical seminar is placed on the relationship of soft tissue and joint articulations whereby applying theory to practical intervention with manual therapy adds a whole new dimension to patient care.

INSTRUCTOR
John Kelly, MPT

Complete bio available on website

TOPICS

- Kinesiology of Deglutition
- Normal and Abnormal Swallow
- Palpation
- Myofascial Assessment
- Physiology of the Myofascial System
- Myofascial Assessment and Techniques of the Anterior Neck and Oral Cavity
- Salivation and Lymphatics
- Postural Dysfunction
- Mobilization of the TMJ
- Muscular Trigger Points and Myofascial Pain Syndrome
- Documentation, Successful Goal Setting and Reimbursement

DATE	CITY	Hotel/Phone/Sleeping Room Rate
Sep. 15-16 Sat/Sun	Schaumburg/Chicago, IL Chicago Marriott Schaumburg	(847) 240-0100 \$105
Oct. 11-12 Thu/Fri	Elizabeth/Newark, NJ Embassy Suites Hotel	(908) 558-0752 \$149
Nov. 03-04 Sat/Sun	Houston, TX Houston Airport Marriott George Bush	(281) 443-2310 \$99
Jan. 26-27 Sat/Sun	San Jose, CA Four Points San Jose Airport	(408) 452-0200 \$129
Feb. 23-24 Sat/Sun	Biloxi, MS South Beach Biloxi Hotel	(228) 456-9003 \$116
March 30-31 Sat/Sun	Salt Lake City, UT Radisson Salt Lake City Airport	(801) 364-5800 \$119

All hotel locations are subject to change. Please refer to website or confirm with office before booking room.

Registration

*Early** **Regular**

DAY 1	Registration 7:30 am	Course Time 8:00 am - 4:30 pm
DAY 2	Registration 7:30 am	Course Time 8:00 am - 2:30 pm

Individual	\$360 ^{ea}	\$420 ^{ea}
With Student ID		\$250 ^{ea}
Group 2-4	\$340 ^{ea}	\$380 ^{ea}
Group 5+	\$320 ^{ea}	\$360 ^{ea}

*Early = one month prior to course

Prerequisite Online Course Anatomy of Swallowing

**Included in course price.*

The Anatomy of Swallowing online course will provide a better insight and understanding of the normal anatomy of the swallow and target structural components of a deficient swallow. Through online MBS videos, detailed anatomical drawings and various site links participants will identify the anatomical landmarks, key functional aspects and neurological highlights involved in the oral, pharyngeal and esophageal stages of the swallow.
(Required completion prior to live course attendance.)

ONLINE COURSE - Anatomy of Swallowing

CEUs: 0.4 (4 hours) OT/COTAs, PT/PTAs, SLP/SLPAs

- An online quiz will determine successful completion of the online course.
- Online course certificate will be available online once the online course is completed.

LIVE COURSE - Myofascial Release

CEUs: 1.2 (12 hours) OT/COTAs, PT/PTAs, SLP/SLPAs

- Check our website or call us for up-to-date CEU information for your discipline or state.
- Participants will receive CEU certificates at the course.
- Learning Outcomes will be assessed through hands-on lab work, case study examples, Q & A and Self-Assessment on the course Evaluation form.
- In compliance with professional boards, CEUs may be reduced or withheld from any participant arriving after the course begins or leaving prior to the course completion.
